The SAT is typically taken by high school juniors and seniors. The College Board states that the SAT measures literacy, numeracy and writing skills that are needed for academic success in college. They state that the SAT assesses how well the test takers analyze and solve problems – skills they learned in school that they will need in college [citation needed].

UPSC IAS MISSION - 2016: Insights IAS Mains Self Study

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
