

automatic control systems by pdf

Introduction. The International Federation of Automatic Control was founded in September 1957. Our multinational federation is concerned with automatic control and its representation in the fields of engineering, science and the impact of control technology on society.

International Federation of Automatic Control - IFAC

Automatic gain control (AGC), also called automatic volume control (AVC), is a closed-loop feedback regulating circuit in an amplifier or chain of amplifiers, the purpose of which is to maintain a suitable signal amplitude at its output, despite variation of the signal amplitude at the input. The average or peak output signal level is used to dynamically adjust the gain of the amplifiers ...

Automatic gain control - Wikipedia

Automatic Exposure Control (AEC) is an X-ray exposure termination device. A medical radiography x-ray exposure is always initiated by a human operator but an AEC detector system may be used to terminate the exposure when a predetermined amount of radiation has been received. The intention of AEC is to provide consistent x-ray image exposure, whether to film, a digital detector or a CT scanner.
