Business Valuation and Analysis Using Financial Statements

A business valuation is a business process used to determine the total worth of a particular business or company. Since a business owner doesn't exactly know the amount of his business, a business valuation report is issued to deliberate and analyze the business components in order to arrive at a specific cost of the business.

15.535 " Business Analysis Using Financial Statements

Our opinion of Fair Market Value relied on a "value in use" or going concern premise. This premise assumes that the Company is an ongoing business enterprise with management operating in a rational way with a goal of maximizing shareholder value. Our analysis considers those facts and circumstances present at the Company at the Valuation Date.
