Oracle acquired Sun Microsystems in 2010, and since that time Oracle's hardware and software engineers have worked side-by-side to build fully integrated systems and optimized solutions designed to achieve performance levels that are unmatched in the industry. Early examples include the Oracle Exadata Database Machine X2-8, and the first Oracle Exalogic Elastic Cloud, both introduced in late 2010.

Oracle and Sun Microsystems | Strategic Acquisitions | Oracle

For the better part of a decade, strategy has been a business buzzword. Top executives ponder strategic objectives and missions. Managers down the line rough out product/market strategies.

Strategic Management for Competitive Advantage

A programmable logic controller (PLC) is an industrial solid-state computer that monitors inputs and outputs, and makes logic-based decisions for automated processes or machines.

Engineering Essentials: What Is a Programmable Logic

One of the dilemmas of management is that processes, by their very nature, are set up so that employees perform tasks in a consistent way, time after time.

Meeting the Challenge of Disruptive Change

A value network is a business analysis perspective that describes social and technical resources within and between businesses. The nodes in a value network represent people (or roles). The nodes are connected by interactions that represent tangible and intangible deliverables. These deliverables take the form of knowledge or other intangibles and/or financial value.

Staff and line are names given to different types of functions in organizations. A "line function" is one that directly advances an organization in its core work. This always includes production and sales, and sometimes also marketing. A "staff function" supports the organization with specialized advisory and support functions.

Staff and line - Wikipedia
