Dimensionalizing Cultures: The Hofstede Model in Context

In social science foodways are the cultural, social, and economic practices relating to the production and consumption of food. Foodways often refers to the intersection of food in culture, traditions, and history.

Foodways - Wikipedia

Animals are used as food either directly or indirectly by the products they produce. Meat is an example of a direct product taken from an animal, which comes from muscle systems or from organs.. Food products produced by animals include milk produced by mammary glands, which in many cultures is drunk or processed into dairy products (cheese, butter, etc.).
