One of the primary goals of this Java book is to prepare students for the AP test. Another is to prepare for competition...and in the process, learn Java. Over the years, I have seen such competition make a significant difference in the lives of many students. If a teacher is not gentle in this approach to competition you can easily "burn-out" students....especially if you continually bombard ...

This book worked great with my class. Very similar to the previous edition so if you need to save money, you could get the older one. It's always recommended that if you've been assigned problems to check out the edition on reserve in your college library just to make sure the numbering hasn't changed.
