In economics, an externality is the cost or benefit that affects a party who did not choose to incur that cost or benefit. When there is no externality, allocative efficiency is achieved; however, this rarely happens in the free market. [unreliable source?] [better source needed]. Economists often urge governments to adopt policies that will "internalize" an externality, so that costs and ...

Introduction Smoking in the mid-20th century was ubiquitous in Australia, as in other Western countries. In 1945, more than three out of every four men and one in every four women were regular smokers. 1 Smoking rates fell dramatically over the following two decades as many men died prematurely and others gave up smoking in response to the concerns about health that were starting to be raised ...
