International Journal of Heat and Mass Transfer

Journal of Heat and Mass Transfer Research is an international journal (print and online) published quarterly by Semnan University Press which was founded in 2013. It reports the latest and most creative research results in the fields of heat and mass transfer including conduction, convection and radiation, phase change phenomena, heat exchanger design and testing, nuclear reactors, geothermal ...

Journal of Heat and Mass Transfer Research (JHMTR) (JHMTR)

Mass transfer is the net movement of mass from one location, usually meaning stream, phase, fraction or component, to another. Mass transfer occurs in many processes, such as absorption, evaporation, drying, precipitation, membrane filtration, and distillation. Mass transfer is used by different scientific disciplines for different processes and mechanisms.

Mass transfer - Wikipedia

The heat transfer coefficient or film coefficient, or film effectiveness, in thermodynamics and in mechanics is the proportionality constant between the heat flux and the thermodynamic driving force for the flow of heat (i.e., the temperature difference, ΔT): . The overall heat transfer rate for combined modes is usually expressed in terms of an overall conductance or heat transfer ...

CONVECTION: Flow of heat through currents within a fluid (liquid or gas). Convection is the displacement of volumes of a substance in a liquid or gaseous phase. When a mass of a fluid is heated up, for example when it is in contact with a warmer surface, its molecules are carried away and scattered causing that the mass of that fluid becomes less dense.
