In cryptography, a certificate authority or certification authority (CA) is an entity that issues digital certificates. A digital certificate certifies the ownership of a public key by the named subject of the certificate. This allows others (relying parties) to rely upon signatures or on assertions made about the private key that corresponds to the certified public key.

Certificate authority - Wikipedia

Accounting Tutors Accounting involves the study of financial information for individuals and corporations. Accounting is typically divided into a few different fields, such as financial accounting, management accounting, tax accounting, and external auditing.

Big Bath in accounting is an earnings management technique whereby a one-time charge is taken against income in order to reduce assets, which results in lower expenses in the future. The write-off removes or reduces the asset from the financial books and results in lower net income for that year. The objective is to "take one big bath"™ in a single year so future years will show increased ...
