Introduction to Process Optimization

Most things can be improved, so engineers and scientists optimize. While designing systems and products requires a deep understanding of influence that achieves desirable performance, the need for an efficient and systematic decision-making approach drives the need for optimization strategies.

Chapter 1 Introduction to Process Optimization

the manufacturing process. The study of manufacturing reveals those parameters which can be most efficiently being influenced to increase production and raise its accuracy. Advance manufacturing engineering involves the following concepts

1. Process planning.
2. Process sheets.
3. Route sheets.
4. Tooling.
- 5.
