Implementation and SNIPE: While I was editing the manuscript, I was also implementing SNIPE a high performance framework for using neural networks with JAVA. This has to be brought in-line with the manuscript: I'd like to place remarks (e.g. "This feature is implemented in method XXX in SNIPE") all over the manuscript.

How can we best identify, understand, and deal with ethical and societal issues raised by healthcare robotics? This paper argues that next to ethical analysis, classic technology assessment, and philosophical speculation we need forms of reflection, dialogue, and experiment that come, quite literally, much closer to innovation practices and contexts of use.
