Light art or luminism is an applied art form in which light is the main medium of expression. It is an art form in which either a sculpture produces light, or light is used to create a "sculpture" through the manipulation of light, colours, and shadows. These sculptures can be temporary or permanent, and can exist in two distinctive spaces: indoor galleries, such as museum exhibits, or outdoors ...

Training in the visual arts has generally been through variations of the apprentice and workshop systems. In Europe the Renaissance movement to increase the prestige of the artist led to the academy system for training artists, and today most of the people who are pursuing a career in arts train in art schools at tertiary levels. Visual arts have now become an elective subject in most ...

an artist's color wheel. An earlier page described several modern color models, including the latest CIE color difference and color appearance models, and a later page explained how the hue circle from any color model can be used to create an artist's color wheel.. This page presents my own color wheels, the result of considerable study. My understanding of the problems involved has changed ...
