

lines in the sand pdf

Sand casting, also known as sand molded casting, is a metal casting process characterized by using sand as the mold material. The term "sand casting" can also refer to an object produced via the sand casting process. Sand castings are produced in specialized factories called foundries. Over 60% of all metal castings are produced via sand casting process.

Sand casting - Wikipedia

A line in the sand is a metaphor with two similar meanings: . The first meaning is of a point (physical, decisional, etc.) beyond which one will proceed no further. An example would be a person who might agree to visit a bar with his friends, but will go no further (i.e. not partake in drinking alcohol).
