manual is general in character and is not to be construed as replacing, modifying, or superseding any of the provisions of the contract, contract plans, contract provisions, or Standard Specifications .

Construction Manual M 41-01

from owners of log homes indicate that many of these homes are highly susceptible to damage by decay fungi and insects. In most instances, the problems occur because of combinations of three factors -- the type of logs used in construction, designs that do not protect logs from rainwetting, and lack of maintenance of exterior wall surfaces.
