Fredriksen, P.: Sin: The Early History of an Idea

But Sin tells how, in the fevered atmosphere of the four centuries between Jesus and Augustine, singular new Christian ideas about sin emerged in rapid and vigorous variety, including the momentous shift from the belief that sin is something one does to something that one is born into. As the original defining circumstances of their movement quickly collapsed, early Christians were left to debate the causes, manifestations, and remedies of sin.

The Very Early History of Trigonometry Dennis W. Duke, Florida State University The early history of trigonometry, say for the time from Hipparchus through Ptolemy, is fairly well established, at least in broad outline (van Brummelen 2009). For these early astronomers plane trigonometry allowed the solution of an arbitrary right triangle, so that

Original sin is the corruption of man's nature, whereby he is utterly indisposed, disabled and made opposite to all that is spiritually good, and wholly inclined to evil, and that continually. Larger Catechism.

Origin and History of the Doctrine of Original Sin

From the same early period, however, writers were aware of "the social consequences of sin" (p. 23). The results of that double focus are admirably unfolded. First, indignation at acquisitive greed did not always encourage radical social reform; it was more a matter of encouraging the rich to help the poor.
