CS-102 Logical Organization of Computers . Aims There are two views of computer architecture. The traditional view, dating back to the IBM System/360 from the early 1960's, is that the architecture of a computer is the programmer-visible view of the machine, while its implementation is the province of the hardware designer.

Software engineering
Software engineering is the application of engineering to the development of software. It involves the design, development, testing, and maintenance of software systems. The field is interdisciplinary, drawing on computer science, electrical engineering, and management. Software engineers are responsible for creating the code that runs on computers and other devices. They also work on the user interface and the overall architecture of the software. The goal of software engineering is to create software that is reliable, efficient, and easy to use.

O primeiro trabalho de linguagem de programação foi criado por Ada Lovelace, grande amiga de Charles Babbage. [8] O projeto da primeira calculadora mecânica programável foi idealizado por Charles Babbage [9] que, após gastar fortunas e um longo tempo, não conseguiu concretizar o projeto. [10] A linguagem de programação ADA foi batizada em homenagem a esta primeira programadora.
