Refrigeration and Air Conditioning By R.S Khurmi [Some Pages Missing].pdf. Uploaded by. Sai Krishna Endana

Refrigeration and air conditioning by C P arora] - Scribd

The history of artificial refrigeration began when Scottish professor William Cullen designed a small refrigerating machine in 1755. Cullen used a pump to create a partial vacuum over a container of diethyl ether, which then boiled, absorbing heat from the surrounding air. The experiment even created a small amount of ice, but had no practical application at that time.

Refrigeration - Wikipedia

AIR “CONDITIONING. Principles and Concepts Air conditioning is the process whereby the condition of Air, as defined by its temperature and moisture content, is changed.
